AUTOMOBILE TOOK DIVE

IS NOW RUSTING AT BOTTOM OF RIVER.

Put on Steamer to be Taken From Stockton to Frisco But Ran Off Into Deep Water.

SAN FRANCISCO, June 6.—L. H. Johnson, an automobilist of this city, is now wishing he had driven his machine home from Stockton last Monday instead of shipping it down on the river boat Columbia, for his auto is now somewhere on the bed of the San Joaquin river. Johnson's horseless carriage was placed in the forward deck of the boat, and all went well until 8:30 o'clock in the evening when twenty-five miles out from Stockton. The luckless automobilist was then notified that his machine had gone overboard, taking a portion of the boat's starboard rail with it. No one on the boat seemed to know anything about the matter, and the only clue to the fate of the automobile was the broken rail. The captain stated that from his station in the pilot-house he heard a crashing of the rail and a splash just as the \$1000 rig went to the bottom of the river.

How the auto went overboard is a mystery, as it had been "cold" for several hours and did not have a pound of steam up. It took the combined efforts of four men to run it on the boat, and at the different landings its position was shifted to facilitate the landing of freight, so the idea that it ran amuck is exploded.

The unfortunate part of the affair is that the auto was a perfectly new one and had not run over fifty miles, and some of Johnson's best clothing was in a trunk strapped on to the machine.

Luckily the owner holds the company's freight receipt for his property. The captain thinks he can locate and raise what is left after five fathoms of water and plenty of mud have done their worst to change the aspect of the bright new carriage.

FAREWELL HERE.

Globe Traveller Says Honolulu Was Good To Him.

Max Schiffer, the German writer who was here yesterday on his way around the world, was the guest of L. H. Dee who quartered him in first class shops at the hotel, drove him about the city and paid all his expenses while here. He was "banded on" by the manager of the Brewery in Seattle to Mr. Dee. Schiffer is going around the world without a cent in his pocket, depending upon hospitality altogether. His book will be on the hospitality of the different countries he has passed. He said: "I was treated very, very well in the United States, but far better here. Honolulu charmed me very much."

The traveller evidently did not know that Honolulu was a city of the United States. He is going to Japan and from there to Manila, where he will enter the United States again, and will cross from there to the United States at Guam. From there he will return and go to Australia; thence back to China. He had not decided whether he will go home via India or by way of the Siberian railway.

GOLD ON ALEUTIANS.

Dr. Rys Thinks Rich Deposits Exist There.

TACOMA, (Wash.), June 3.—Dr. T. J. Vaughan Rys, who spent the summer two years ago in prospecting Unimak Island, one of the Aleutian group, expresses the belief that the Aleutian islands will be found rich in placer gold and gold-bearing quartz. Dr. Rys went to Unimak Island to investigate large sulphur deposits known to exist there. It was found impracticable to mine sulphur because the island has no harbor from which it might be shipped. Dr. Rys visited some of the other islands and exchanged confidences with prospectors who were then searching for gold. From them he learned that several of the islands have gold-bearing streams which it is believed compare favorably with the creeks of Nome. Several fishermen and seal hunters were taking out gold on Unimak Island but could not save all of it owing to their very crude appliances. On Unimak island in the Aleutians, the Alaska Commercial Company is operating one of the richest quartz mines in Alaska. With the exception of Unimak all the large islands have good harbors, which are open the year round, giving great advantage over the Nome country.

A GOOD THING.

There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They stop to drink of "Rainier" beer On draught or in bottle at Criterion.

Note Heads, Bill Heads, Letter Heads and all kinds of Job and Commercial printing neatly and promptly executed at the Star Office.

Here we are again to greet you—greet you with the best selected and newest stock of Hats of the season, which have just arrived.

Our stock of the celebrated Knox Hats is complete and in shades to suit all complexions.

Our Straw Hats for Styles cannot be surpassed, for that is a well known fact and attested by the number you see worn on the streets.

We are always in the times a ' never neglect to give our patrons the newest the market affords.

This pertains to our Men's stock, but we also have an assortment of Hats and caps for children and boys that will make them look sweeter than ever to you. Give us a call.

We solicit your trade.

Another Large Shipment of Angle Lamps

"THE ANGLE LAMP"

The Light that Never Fails

It seems almost incredible that any lamp could be good enough to take the place of electricity on every occasion, yet such is the case with the ANGLE LAMP. All over the Islands people are throwing away their old lamps and replacing them with this lamp, not merely because it costs about one-tenth as much to maintain (cost is no object to some people) but besides being infinitely cheaper it is more brilliant and more reliable in the bargain. It is a revelation to every one who uses it, and simply demonstrates that the old-fashioned lamp was a barbarous contrivance. THE ANGLE LAMP never smokes, smells or gives any trouble, is lighted and extinguished as easily as gas, and is the ideal light from every standpoint. We carry these lamps from \$1.50 up.
